Re: Hillside, Gizmo, Maybe,
Vallejo, and Bears Ears Mines
ACT/037/015

Dear Dean:

I have been reviewing the application for the above-mentioned mines. The Division is handling the five mines as one operation and application.

I would like to tentatively schedule a field inspection with you of this mine complex and possibly the Re-pete mine during the first week of January, 1979. We would like to view existing surface facilities at the mine site so that the reclamation surety can be better estimated.

The Division would like to receive two commitments that we had previously overlooked:

1. Mining will be conducted in a safe, sound, technical and prudent miner-like manner.
2. Upon termination of mining surface debris, scrap metal, discarded wood, and unuseable buildings will be buried or removed from the site.

These are standard commitments that we ask of all operations. When these are received the plan will be presented to the Board for their concurrence for granting tentative approval.

Thank you for your cooperation.

Sincerely,

K. MICHAEL THOMPSON
ENGINEERING GEOLOGIST
